COMMITTEES.

The 15th August 1923.

No. 2671-S.—The following note on the Reconstitution of the Municipal Committees and District Boards of the Punjab with explanatory statistics is published :—

NOTE.

THE Government of India, in a Resolution No. 41 (Education—Municipalities), dated 16th May 1918, laid down principles for observance with a view to the development of local self-Government in India ; and action had, in certain directions, been taken in the Punjab in accordance with these principles before the introduction of the Reforms. The constitution of local bodies has continued to receive the attention of the present Government, and the object of this note is to explain very briefly the present situation as brought about by alterations introduced since the commencement of the reformed scheme of Government.

Municipalities in the Punjab on 1st January 1921.

2. On 1st January 1921, there were altogether 101 municipal committees in the Punjab, of which 79 were based, in varying degrees, on a system of election ; the remaining 22 consisting entirely of nominated members. Of the 79 committees with an elective element, 38 were based on communal electorates, and the remaining 41 on mixed or general electorates with open voting.

Alterations made in the pre-reform municipal constitutions.

3. The alterations most urgently called for in the existing municipal constitutions were considered to be :—

(*a*) the adoption of some fixed principle for determining the total number of members in each of the various municipal committees. As matters stood, a municipality with a given population would have a committee consisting of, say, 10 members, and another in the same district, with a larger population would have a committee of, say, only 8 members. On the whole, the numerical strength of municipal committees needed to be increased rather than diminished in order to provide for the representation of the various interests concerned ;

(*b*) the introduction of a system of election in most of the 22 nominated municipalities ;

(*c*) the increase of the elected element in the 79 committees where it already existed ;

(*d*) a general reduction of the official element in all the 101 municipalities.

As to (*a*) the reform has been effected with due regard to the population as modified by factors such as the existing constitution and the variety of the interests to be represented.

Ordinarily, however, municipal committees with a population of 5,000 or less have been given a large number of members per 1,000 than municipalities with a population of over 5,000. On the whole the strength of all the municipal committees has been increased as much as was possible without making them unwieldy.

As to (*b*) the principle of election has been introduced, or its introduction has been ordered in 17 out of the 22 nominated committees, leaving only 5 as they were before. Further, 2 new committees (Narowal and Abohar) have been created, both with an elected element, bringing the total number of municipal committees to 103. Thus, under the orders now in process of enforcement, only 5 committees out of 103 will be without an elected element.

As to (*c*) the elected element has ordinarily been increased to 75 per cent. of the total, and in some cases even to 85 per cent. In only 8 out of the 98 municipal committees in which the elective system has been introduced or ordered to be introduced is the elected element less than 75 per cent.

As to (*d*) the official element in municipal committees has been reduced as much as possible. It is now very small and largely consists of educationists and medical men.

Why was it necessary to reconstitute the municipal committees, and on what principle has the reconstitution been effected.

4. Before 1921 a municipal committee was constituted or reconstituted, from time to time, as occasion required, when some one moved in the matter of that particular municipality. The wholesale revision of constitutions made necessary by the reforms indicated in the foregoing paragraph,—that is to say, by the increase in the total number of members in most committees, by the introduction of election in committees where it did not exist before, and by the increase in the number of elected members in committees that were already based to some extent on election—accentuated the necessity of formulating some fixed principle of general application for the distribution of the elected seats on municipal committees among the various communities. The problem was to discover a formula which should graft the democratic principle of the Reforms on the concrete facts of municipal administration in the Punjab. The formula adopted was that "the elected seats on municipal committees should be distributed among the communities in proportion to their population as modified arithmetically by their voting strength."

In some municipalities, where communal representation did not prevail, it was noticed that the wards were so constituted as to place a community with a large majority of voters in the position of a minority whenever elections ran on communal lines. In order to avert this evil, care was taken in such municipalities to see how the wards are constituted, and an attempt made to demarcate the wards in such manner as not to place any community at a disadvantage.

The principle of communal representation in municipalities.

5. It has already been mentioned that in January 1921 the constitution of 38 municipalities was based on communal electorates. At the very commencement of the general reconstitution Government laid it down that communal electorates should not be newly introduced in any municipality except with a view to remove communal friction, or to satisfy a keen local demand on the part of an aggrieved community. In accordance with this principle communal electorates are being allowed in 11 other municipalities, and of these 11 the reconstitution of 3 with communal electorates had already been taken in hand before 1921.

It is thus contemplated that out of 98 municipalities in which the system of election prevails, there will be 49 with communal electorates.

General results.

6. As a result of the reconstitution effected or proposed to be effected in the 49 municipal committees with communal electorates, 8 committees will have an equal number of Muslim elected member as against the other elected members ; 13 committees will have preponderance of Muslim elected members ; and the remaining 28 committees will have a preponderance of elected members other than Muslims.

Alterations made in the pre-reform district boards constitutions.

7. On 1st January 1921 there were, exclusive of Simla, teventy-eight district boards altogether in the Punjab. Seventeen boards out of these were based, in some degree, on a system of election while the remaining 11 had only nominated members. The constitutions of these boards were held to call for the following improvements :—

(*a*) the introduction of the system of election in the 11 nominated boards ;

(*b*) the increase of the elected element in the 17 boards where it already existed ;

(*c*) the reduction of the official element in all the 28 boards ;

(*d*) the revision of the franchise, which was not uniform throughout the Punjab, and in some cases was open to serious objection, *e. g.*, in Lyallpur, where lambardars only had the vote.

8. As a result of the reconsititution of the boards on the above lines, the extisting elected element was in 16 out of the 17 elected district boards raised to 75 per cent., and in one to 66 per cent. Further, in the 11 district boards that were purely nominated, 8 have been given a 66 per cent. and 3 a 33 per cent. elected element. Six is the maximum number of officials that can now be nominated on any one of the 28 district boards.

Results of the reconstitution.

9. All these 28 district boards are without exception, being reconstituted on a territorial basis, but Government have directed that, subject to the convenience of voters and the maintenance of zail boundaries, an effort should be made so to constitute circles as not to give a particular community preponderance in a larger number of circles than what would be due to that community on the combined basis of its population and voting strength. In practice, however, it has not been found possible to carry out this principle in any satisfactory manner.

Basis of electoral circles for district boards.

10. The Hindus in some districts where they were in a minority, *e. g.*, Amritsar, Multan, Jhang Muzaffargarh and Dera Ghazi Khan, pressed for communal representation. This was also done for the same reason by the Muslims of Amritsar, Jullundur Ferozepore, Gurdáspur, Gujránwála, Ambála and Hissar. Government have, for the present, decided not to introduce communal representation in any district board, but to watch the results of the next elections.

The principle of communal representation in district boards.

11. The committees of notified areas are entirely nominated. As practically all notified areas are to be converted into small towns, their constitutions have not been touched. The general principles for the constitution of small town committees are still under consideration.

Notified areas and small towns.

12. Finally, it is necessary to explain the principles on which Government exercise their power of nominating non-officials on local bodies As a rule only such non-officials are nominated whose presence on a committee or board is desirable in the public interest : Government accept, however, the principle that in municipalities where communal representation prevails, nominations should not ordinarily be so made as to disturb the balance of the elected seats apportioned to the various communities· Where communal representation does not prevails and it is not possible to arrange for the due representation of a minority by other means, the balance may to some extent be redressed by a limited use of the power of nomination.

The principle on which Government nominate members on local boards.

13. The statistical tables that follow will, it is hoped, prove useful in illustration of this note :

The statistical tables.

Table I.—The population figures are based on the Census of 1921. The voters' figures were submitted by the local officers when the reconstitution was taken in hand.

Table II—gives the distribution of members in municipal committees before they were reconstituted ; the figures were practically the same on the 1st of January 1921.

Table III—gives the seats due to the principal communities on the basis of (*a*) population, (*b*) voting strength, and (*c*) the average of population and voting strength.

Table IV—gives the proposals of Government based on the last four columns of table III. The table shows the cases in which the proposals have already been sanctioned. In this table the distribution by communities is given only against those municipalities where the communal system prevails.

Table V.—The population figures are based on the Census of 1921. The voters' figures were submitted by the local officers when the reconstitution was taken in hand.

Table VI—gives the distribution of members in district boards before they were reconstituted ; the figures were practically the same on the 1st of January 1921.

Table VII—is self-explanatory. The communal system has not been introduced in to any district board.

Table VIII—gives the seats that would fall to the share of the principal communities in each district board on the basis of (*a*) population, (*b*) voting strength, and (*c*) the average of population and voting strength.

7. It shall be in the discretion of the Cantonment Authority to prepare for the whole or any part of the Cantonment a new assessment list every year, or to adopt the valuation and assessment contained in the list for any year with such alterations as may in particular cases be deemed necessary, as the valuation and assessment for the year following, giving to persons affected by such alterations the same notice of the valuation and assessments as if a new assessment list had been prepared.

When any tenement, the annual value of which has been thus separately recorded, has remained vacant and unproductive of rent such portion of the tax on the whole building shall be remitted or refunded as would have been remitted or refunded if the tenement had been separately assessed.

(*b*) For the purpose of this rule no building or land shall be deemed vacant if maintained as a pleasure resort or town or country house, or be deemed unproductive of rent, if let to a tenant who has a continuing right of occupation thereof whether he is in actual occupation or not.

Provided that no such remission shall be made unless notice in writing of the circumstances in which it is claimed has been given to the Cantonment Authority within fourteen days after the expiry of the period in respect of which it is so claimed.

(2) The burden of providing the facts entitling any person to claim relief under this rule shall lie upon him.

(2) If any person so called upon to furnish such information omits to do so or furnishes information which is untrue, he shall be punishable with fine which may extend to one hundred rupees.

Notice to be given to the Committee of all transfers of title of persons primarily liable to payment of property taxes. Section 74 of the Punjab Municipal Act, 1911.

11. (1) Whenever the title to or over any building or land of any person primarily liable for the payment of property taxes on such property is transferred the transferor and the transferee shall within three months of the registration of the deed of transfer, if it be registered, or if it be not registered, within three months of its execution, or, if no instrument be executed, of the actual transfer, give notice in writing of such transfer to the Secretary, Cantonment Committee.

(2) Every person primarily liable for the payment of a tax on any property, who transfers his title to or over such property, without giving notice, of such transfer, to the Secretary, Cantonment Committee, as aforesaid, shall, in addition to any other liability which he incurs through such neglect continue liable for the payment of all such taxes from time to time payable in respect of the said property until he gives such notice, or until the transfer shall have been recorded in the office of the Secretary, Cantonment Committee.

(3) Whenever the title to or over any building or land has devolved upon any person by inheritance, the heir shall within three months of the date of the death of the former owner give notice in writing for such inheritance to the Cantonment Authority.

(4) Nothing in this rule shall be held to diminish the liability of the transferee or heir for the said taxes or to affect the prior claim of the Cantonment Authority for the recovery of the taxes due thereupon.

12. The Cantonment Authority may authorise any person :—

Power of entry for the purposes of valuation of taxation. Section 75 of the Punjab Municipal Act, 1911.

(a) after giving twenty-four hours' notice to the occupier, or, if there be no occupier, to the owner, of any building or land, at any time between sunrise and sunset, to enter, inspect and measure any building for the purpose of valuation ;

Recovery of taxes payable by owner. Section 80 of the Punjab Municipal Act, 1911.

14. (1) When any sum is due on account of a tax payable in respect of any property by the owner thereof the Cantonment Authority shall cause a bill for the amount, stating the property and the period for which the charge is made, to be delivered to the person liable to pay the same.

(2) If the bill be not paid within ten days from the delivery thereof, the Cantonment Authority may cause a notice of demand to be served on the person liable to pay the same and, if he do not within seven days from the service of the notice pay the sum due, or show sufficient cause for non-payment, the sum due shall be deemed to be an arrear of tax.

(3) The amount of every such arrear, besides being recoverable in any other manner provided by these rules, shall, subject to any claim on behalf of His Majesty, be a first charge on the property of the owner or occupier, as the case may be, in respect of which it is payable and shall be recoverable, on application made in this behalf by the Cantonment Authority to the Collector, as if the property were an estate assessed to land revenue and the arrear were an arrear of such revenue due thereon.

Provided that nothing in this rule shall authorise the arrest of a defaulter.

(4) If any tax or sum leviable in the Cantonment from the owner is recovered from the occupier, such occupier shall in the absence of any contract to the contrary, be entitled to recover the same from the owner and may deduct the same from the rent then or thereafter due by him to the owner.

Recovery of taxes, etc. Section 81 of the Punjab Municipal Act, 1911.

The costs of such proceedings shall be recoverable from the defaulter in the same manner as the said arrears.

(2) An application made under sub-rule (1) shall be in writing and shall be signed by the President, a Vice-President or the Secretary of the Cantonment Committee, but it shall not be necessary to present it in person.

Precaution to be observed in entering dwellings. Section 213 of the Punjab Municipal Act, 1911.

16. When any building used as human dwelling is entered under rule 12, due regard shall be paid to the social and religious sentiments of the occupiers ; and before any apartment in the actual occupancy of any woman, who according to custom does not appear in public, is so entered, notice shall be given to her that she is at liberty to withdraw, and every reasonable facility shall be afforded to her for withdrawing.

17. (1) An appeal against the assessment or levy of any, or against the refusal to refund any tax under these rules shall lie to the Deputy Commissioner, or to such other officer as may be empowered by the Local Government in this behalf.

Appeals ag[illegible] Section [illegible] of the Punjab Municipal Act, 1911.

(2) If, on the hearing of an appeal under this rule, any question as to the liability to or the principle of assessment of, a tax arises, on which the officer hearing the appeal entertains reasonable doubt, he may, either of his own motion or on the application of any person interested, draw up a statement of the facts of the case and the point on which doubt is entertained, and refer the statement with his own opinion on the point, for the decision of the High Court.

(3) On a reference being made under this rule, the subsequent proceedings in this case shall be, as nearly as may be, in conformity with the rules relating to references to the High Court contained in section 113 and Order XLVI of the Code of Civil Procedure, 1908.

(4) In every appeal the costs shall be in the discretion of the officer deciding the appeal.

(5) Costs awarded under this rule to the Cantonment Authority shall be recoverable by the Cantonment Authority as though they were arrears of a tax due from the appellant.

(6) If the Cantonment Authority fail to pay any costs awarded to an appellant within ten days after the date of the order for payment thereof the officer awarding the costs may order the person having the custody of the balance of the Cantonment Fund to pay the amount.

18. (1) No appeal shall lie in respect of a tax on any land or building unless it is preferred within one month after the publication of the notice prescribed by sub-rule 2 of rule 5 or by rules 6 or 7, or after the date of any final order under rule 5 or 6, as the case may be, and no appeal shall lie in respect of any other tax unless it is preferred within one month from the time when the demand for the tax is made.

Limitation of appeal. Section 85 of the Punjab Municipal Act, 1911.

Provided that an appeal may be admitted after the expiration of the period prescribed therefor by this rule, if the appellant satisfies the officer before whom the appeal is preferred that he had sufficient cause for not presenting the appeal within that period.

(2) No appeal shall be entertained unless the appellant has paid all other taxes due from him to the Cantonment Authority up to the date of such appeal.

19 (1) No objection shall be taken to any valuation or assessment, nor shall the liability of any person to be assessed or taxed be questioned, in any other manner or by any other authority than is provided in these rules.

No. 24946.—With reference to Punjab Government notification No. 27577, dated 8th November 1922, the Punjab Government (Ministry of Education) are hereby pleased to publish the following revised draft rules for the assessment and collection of the terminal tax in Municipalities, Small Towns and Notified Areas, after consideration of the objections and suggestions received on the former draft The draft will be taken into consideration on or after the 31st December 1923, together with such further suggestions as may be received in respect of it before that date. Suggestions should not be submitted on points of detail which have already been considered by Government, and alterations made where necessary, nor should they merely repeat suggestions already made. Criticism should be confined to points of principle and it should particularly be noted that in the draft now published :—

(*a*) the scope of rule 3 has been extended, and certain maximum limits of taxation fixed,

(*b*) clauses (*c*), (*f*), (*g*), (*h*) and (*i*) of rule 4 giving exemptions have been omitted,

(*c*) the railway employé empowered to collect terminal tax at stations has received certain powers (rule 1 (*i*) and rule 6 (4),

(*d*) in place of the exemption of Government and Municipal articles, a system of composition for such articles has been proposed (rules 22-A, 22-B and 22-C).

Under the system it is not proposed to tax articles imported and kept within terminal tax limits for 6 months or less, but it is thought that such articles should not be exempt if retained in depôt for longer periods. Composition of the terminal tax will shortly be legalized by amendment of section 70 (2 (*a*) of the Punjab Municipal Act, 1911.

(*e*) the transit pass system has been tentatively retained for further criticism, and

(*f*) taxation limited to road-borne articles, and the collection of the tax on rail-borne articles by Municipal Agency is discouraged.

Draft Terminal Tax Rules.

PART I.—GENERAL.

Definitions.

1. In these rules unless there is something repugnant in the subject or context :—

(*a*) The Act means the Punjab Municipal Act, 1911, as amended by the Punjab Municipal Amendment Acts of 1921, and 1923, or the Punjab Small Towns Act, 1922, whichever may be applicable.

(*b*) "Import" means the bringing of articles into the terminal tax limits from outside those limits.

(*c*) "Export" means the conveying of articles out of the terminal tax limits.

Explanation.—A consignment brought within terminal tax limits by rail and rebooked without taking delivery is neither imported nor exported.

(*d*) "Importer" includes the person in whose name the railway document is made out and the person in charge of the articles and the buyer of articles sold by auction by the railway or municipal authorities.

(*e*) "Exporter" includes a consignor and the person in charge of the articles at the time of export from terminal tax limits.

(*f*) "Road-borne traffic" includes traffic by air or water.

(*g*) "Committee" includes a Small Town or Notified Area Committee and "Municipality" includes a Small Town or Notified Area.

(*h*) "Collecting Station" means a place appointed by the Committee for the recovery of terminal tax and includes a barrier, and a railway station, where the terminal tax is collected.

(*i*) "Collecting Officer" means the person employed by the Committee to collect the terminal tax and includes a *Muharrir*, and a railway employé empowered to collect terminal tax.

(*k*) "Superintendent" means any officer appointed to act as Terminal Tax Superintendent of the Municipality.

(*l*) "Head Office" means the office of the Superintendent.

Principles of taxation.

2. The terminal tax may be assessed on all articles imported into and exported from the terminal tax limits of a Municipality by rail and by road. The articles proposed to be taxed, with the rates of taxation, shall be listed in a schedule which shall be submitted for the sanction of Government.

Explanation.—This rule does not preclude a Committee from proposing to levy the tax only on imports, or exports, or only on rail-borne traffic or for any special reasons to be recorded only on road-borne traffic.

Limitations.

3. Schedules of taxation proposed shall be framed to suit local conditions, and shall be subject to the limitations following:—

(*a*) If imports and exports are proposed for taxation, the same article shall not be included in both the import and the export schedule.

(*b*) The tax shall be assessed by weight, and not *ad valorem* or by tale, but may vary with the class of articles taxed.

(*c*) Articles on which taxation at an approved rate yields an insignificant return shall be excluded from schedules.

(*d*) Articles locally produced or manufactured and the raw materials used in their production or manufacture shall be lightly taxed.

(*e*) The following articles shall not be taxed at a higher rate than the following:—

(*i*) Salt	... 6 pies per maund.

(*vi*) Charas	... 2 annas per maund.
(*vii*) Bhang	... 1 anna per maund.
(*viii*) Machinery, and parts of machinery	... 4 annas per maund.

(*f*) In municipalities where the terminal tax supersedes octroi the receipts therefrom shall not materially exceed the average net income from octroi in the three preceding years, and the rates of terminal tax leviable on articles, the subject of through trade, shall be lower than the octroi rates formerly charged thereon. Rates of taxation on articles in which there is no through trade may be equivalent to or higher than the said octroi rates.

(g) If the Railway Administration undertakes the collection of the tax on rail-borne articles the classification of articles taxed shall accord with the general classification in force on the railway.

NOTE.—In such cases Government will consult the Railway Administration both before the imposition of the terminal tax and when it is proposed to make any important alteration in existing schedules.

(h) The rates of tax on road-borne articles shall, as far as possible, be so pitched as not to prejudice rail-borne traffic.

Exemptions. 4. No terminal tax shall be charged in respect of the following articles :—

(a) *Bonâ fide* personal and household belongings imported by persons on coming to take up their residence in the municipality or exported on their leaving the municipality to take up their residence elsewhere, and *bonâ fide* personal belongings carried by or accompanying a traveller.

(b) The Committee may for very special reasons to be recorded collect through its own agency.

PART II-A.—ASSESSMENT AND COLLECTION BY THE RAILWAY ADMINISTRATION.

6. Where collection is undertaken by the Railway Administration, the Administration may make their own rules. The following conditions shall, in addition, be applicable :—

(1) On articles carried in bulk at wagon rates the tax shall be levied on the "weight for charge" as shown in the railway receipt.

(2) Fractions of maunds and annas shall be dealt with in accordance with the rules in force on the railway.

(3) When one consignment consists of two or more classes of articles chargeable at different rates, the rules contained herein shall apply to each such class: Example :—if a consignment consists of 11 seers of paints chargeable at 3 annas a maund, 16 seers of drugs chargeable at 4 annas a maund and 20 seers of cigars chargeable at 8 annas a maund each class will be charged as 20 seers.

(4) The railway employé empowered to collect the terminal tax shall be deemed to be an officer authorized by the Committee to examine, search for and detain and otherwise deal with articles within the meaning of sections 76, 77 and 82 of the Act.

If no tax is leviable the words "free of tax" shall be recorded with the terminal tax stamp.

Nothing in this rule shall be taken to preclude the granting of a terminal tax receipt in the manner specified in rule 15 or the preparation by the importer of a statement in Form No. 8 to accompany the consignment; or to affect the collecting officer's powers of examination search, detention, etc., under sections 76, 77 and 82 of the Act.

10. The Superintendent shall, with the premission of the Railway Administration, check at least once a month all such registers (Form No. 6) with the registers kept by the Administration.

PART III.—ASSESSMENT AND COLLECTION ON ROAD-BORNE ARTICLES.

11. The Committee may appoint such collecting stations as may be deemed necessary either within or without terminal tax limits for the assessment and collection of the terminal tax on road-borne traffic.

12. The Committee shall exhibit at each barrier one copy of these rules (Parts III and IV), together with a copy of its sanctioned terminal tax schedule.

13. The Committee shall provide a suitable set of scales and weights at each barrier. 14. Subject to the provisions of rules 23—30 the terminal tax shall be payable to the collecting officer before import or export as the case may be on the gross weight of all taxable articles at the rates prescribed by Schedule.

15. Every importer or exporter as the case may be may prepare a statement in Form No. 8 and take it with any other relevant documents to the collecting officer. Such collecting officer shall check the contents of the statement with the articles and satisfy himself as to the correctness of the statement and shall then assess the terminal tax to be paid on such articles. On payment by the importer or exporter of the amount so assessed the collecting officer shall grant him a receipt for such amount (in Form No. 2).

NOTE.—No terminal tax shall be levied when the total sum due does not amount to three pies.

16. Each portion of the consignment that passes the barrier must be accompanied by the terminal tax receipt (Form No. 2) on the back of which the collecting officer shall enter details of the portion of the consignment passing the barrier at the time until the whole consignment has passed. If any portion of the consignment is not accompanied by the receipt form (No. 2) the collecting officer shall assess the articles and demand payment and the importer shall pay the amount demanded before the articles are permitted to pass.

17. A collecting officer shall be stationed at every barrier. No money shall be received by any person below the rank of a *Muharrir*.

18. On demand by an inspecting officer every importer or exporter shall produce his terminal tax receipt (Form No. 2) and shall allow such officer to verify the entries therein by inspection of the goods.

If the importer or exporter fails to produce his terminal tax receipt or if the inspecting officer finds that the articles have not been fully assessed such officer shall seize and send them to the head office. On receipt at the head office the Superintendent shall assess the articles and the importer or exporter as the case may be shall pay the terminal tax or the deficiency thereof. The importer or exporter whose articles have been seized shall accompany them to the head office.

NOTE.—Any person refusing to produce a receipt or to permit an Inspector to inspect the articles or to accompany the Inspector to the head office is punishable with a fine which may extend to Rs. 50.

19. If the importer or exporter disputes any decision or the collecting officer the latter shall send the articles to the head office with a brief report for the decision of the Superintendent.

20. An importer or exporter as the case may be who is dissatisfied with any decision under any of the preceding rules may appeal to the Committee within 7 days of the date of such decision.

21. On the seizure of the goods under section 82 of the Act or rule 18 of these rules the collecting officer shall immediately give or send to the importer or exporter as the case may be, a notice in Form No. 9 annexed to these rules.

NOTE.—Any person refusing to permit a seizure is punishable with a fine which may extend to Rs. 50.

22. Should the importer or exporter appeal to the Committee against the seizure, or subsequent auction, of his goods at any time before the date announced for the auction, such auction shall not take place until the appeal has been decided by the Committee.

PART III-A.—COMPOSITION OF TERMINAL TAX.

22-A. Any Department of Government or any local body may, compound, for a period not exceeding three years (renewable on expiry) for the terminal tax on articles whether imported or exported the property of which is vested in it at the time they pass the barrier. The annual composition shall ordinarily be on the basis of the net amount of articles annually imported or exported as the case may be.

In case of dispute the decision of the Deputy Commissioner as to the amount payable by way of composition shall be final.

22-B. Payments by Departments or local bodies that compound shall be made annually in advance.

22-C. (*i*) Books of free passes in counterfoil shall be given in Form No. 10 to Departments of Government and local bodies that compound for the terminal tax, whether on imports or exports.

(*ii*) Every free pass (Form No. 10) shall, after completion under the signature of a gazetted officer, be presented to the railway employé empowered to collect the tax or send to the barrier with the goods claiming exemption.

(*iii*) The railway employé or the barrier *Muharrir* as the case may be shall check the articles with the free pass (Form No. 10) and then complete the certificate on its lower half and also the coupon. He shall tear off and give the coupon to the person who presented the pass and admit or pass out the articles free of tax.

PART IV.—EXEMPTION OF ARTICLES IN TRANSIT.

23. No goods shall be deemed to be imported " for immediate export " under these rules unless the same are exported within 3 hours of import or within such extended period as may be fixed by the Secretary of the Committee.

24. Terminal tax shall not be payable in respect of articles which are imported " for immediate export. "

NOTE.—Rules 25—30 following shall not apply to articles " for immediate export " delivery of which has not been taken from the railway. Such articles are not liable to terminal tax.

25. When any articles are declared to be " for immediate export " the collecting officer at the barrier of import shall give a transit pass in Form No. 7 with a counterfoil and send the goods in charge if possible of a peon to the barrier of export where the pass shall be given to the collecting officer. The peon shall remain incharge of the consignment until it has reached the barrier of export. When it is impossible to send a peon with the articles the Muharrir at the barrier of export shall fill up the certificate and shall send it in the evening with his cash box to the head office, where it shall be pasted on to the counterfoil in the book received from the barrier of issue.

26. The importer shall pay a fee of annas 4 for each transit pass at the barrier of import.

27. The *Muharrir* at the barrier of import shall enter the exact time of import and shall detail the number of vehicles and the number, kind and weight of the packages in each vehicle.

28. Any inspecting officer meeting the consignment may check it with the pass and shall initial the pass and give the exact time of checking. If he notices any discrepancy he shall accompany the consignment to the barrier of export.

29. If it be found at the barrier of export that the consignment does not tally with the pass the collecting officer shall charge the full amount of terminal tax due and send the pass with a report to the Superintendent.

30. If the consignment tallies with the pass the *Muharrir* at the barrier of export shall fill up the pass and give it to the peon who has accompanied the consignment. The peon shall immediately return it to the *Muharrir* at the barrier of import and the *Muharrir* shall endorse on the pass the hour at which the peon returned and paste it on the counterfoil.

When it is impossible to send a peon with the articles the Muharrir at the barrier of export shall fill up the certificate and shall send it in the evening with his cash box to the head office, where it shall be pasted on to the counterfoil in the book received from the barrier of issue.

The counterfoils shall be sent to the head office with the cash box (*vide* rule 35).

PART V.—ACCOUNTING.

31. The *Muharrirs* receiving payment of terminal tax shall immediately on receipt check the amount paid and place it in the cash box. The progressive totals of the terminal tax received shall be kept on the counterfoil of each page of the receipt book (Form No. 2)

in the place provided at the foot. At the end of the day the progressive total of the money received for the day shall be taken up to the last counterfoil of the receipt book used and shall be entered thereon.

NOTE.—Separate receipt books in Form 2 shall be maintained for exports and imports.

32. (1) The inspector visiting a barrier shall see that the totals are taken regularly as directed in rule 31 and shall initial the pages which he checks.

(2) When an inspecting officer checks the receipt (Form No. 2) of an importer or exporter as the case may be after finding that all items in receipt are correct he shall fill up the columns in the coupon (Form No. 2) and tear it from the receipt for comparison with the counterfoil (Form No. 2) at the barrier. He shall then endorse the receipt and return it to the importer or exporter.

(3) When an inspector arrives at the barrier he shall verify the coupons (Form No. 2) which he has collected with the counterfoils (Form No. 2) and initial each counterfoil in token of his having made the check. He shall then place the coupons in the cash box for the information of the head office. The Superintendent shall keep or cause to be kept a book of receipts and counterfoils (Form No. 2) similar to those kept by the *Muharrir* at the barriers and when any articles are brought to the head office under the terminal tax rules he shall assess and deliver a receipt and fill up the counterfoil in the manner prescribed for *Muharrirs* at the barriers.

33. At the close of each working day the *Muharrir* shall classify the terminal tax he has received in a *jinswar* to be compiled on a loose form (No. 3). In this *jinswar* the *Muharrir* shall enter the items from his counterfoils (No. 2) for the day, noting the amount of terminal tax in the appropriate column.

34. To prevent delay, and to ensure that all moneys, as received by the *Muharrir*, are immediately placed under lock and key, the Committee shall provide, if necessary, a double set of books and two cash boxes at each barrier so that when one set is at the head office (see rule 35) the other shall be available for use.

35. The *Muharrir* of each barrier shall send daily at such time as may be appointed by the Secretary to the head office his cash box, books of receipts, counterfoils, transit and composition passes and *jinswars*.

36. The cash box shall be opened at the head office by the Superintendent in the presence of such officer as the Committee may appoint in this behalf.

37. (i) After the money in the cash box has been counted and checked with the amount shown in the last counterfoil of Form No. 2 and the collecting station *jinswar* (Form No. 3) of the collecting station concerned the Superintendent and such other officer as the Committee may appoint under rule 36 shall place his initials at the foot of the last counterfoil for the day of Form No. 2 as well as on the barrier *jinswar* (Form No. 3). The aggregate contents of all the cash boxes shall then be brought to account in the manner prescribed in the rules below.

NOTE.—The cash shall be dealt with and brought to account promptly and shall not be left lying about while the checking of counterfoils and *jinswars* is proceeding.

(ii) When the money in the cash box has been counted the counterfoils from the collecting station concerned shall be examined by the Superintendent. He shall check at least 2 per cent. of them in detail and see that the progressive totals in the books are correct.

(iii) The coupons found in the boxes from the collecting stations shall be examined by the Superintendent as a check on the work of the Inspector. These shall be retained for one month and then destroyed.

(iv) The books shall be returned with the empty box to the collecting station without delay. The *jinswar* and composition passes shall be retained at the head office.

38. (i) The day's collections shall be entered for each collecting station separately in the Superintendent's cash book (Form No. 4).

(ii) The total collections shall be entered in a chalan form of the Municipal Account Code which will be sent to the Secretary who will bring the amount to account in his general cash book (Form No. 67 of the Municipal Account Code).

(iii) The Superintendent's cash book shall be examined once a month by the Secretary, who shall compare the entries with the entries in his own cash book.

39. The basis of classification of terminal tax at the head office is the barrier *jinswar* (Form No. 3) received from the collecting stations. These shall be compiled into one statement in the head office *jinswar* (Form No. 5) separately for imports and exports, the name of the collecting station being entered in the first column and the tolals of the *jinswars* appertaining to each collecting station being entered in other columns opposite the name of that station. The total amount of terminal tax under all heads for the day shall be entered in the last column. The total and cross-total of the vertical columns each day will then give the whole amount of terminal tax collected for the day.

The statement shall be signed daily by the Superintendent. It shall be sent to the Secretary, who shall compare its totals with the amount entered in his cash book (Form No. 67 of the Municipal Account Code). To obtain classified totals for the monthly accounts the progressive totals shall be taken at the head office in Form No. 5. Similar procedure shall be adopted for the annual statement (No. 76) for the purpose of rules 314 and 346 (*b*) of the Municipal Account Code.

PART VI.—MISCELLANEOUS.

40. All articles contained in the same consignment shall be charged for at the highest rate that may be levied on any portion of the consignment, unless the importer or exporter, as the case may be, gives at the time of export or import all the details necessary for classification.

41. The name of the municipality shall be printed or stamped on the receipt and counterfoil in Form No. 2 and a consecutive book and Form No. shall be printed on each receipt and counterfoil.

42. At each collecting station an inspection book (Form No. 1) will be kept and all inspecting officers or members of the Committee shall enter their remarks in this book. The Superintendent shall inspect each barrier at least twice a week.

43. The Superintendent shall test the weighing machines at each barrier at least once in every three months and record the result of the test in the inspection book.

44. Suitable security shall be taken from all officers connected with the assessment and collection of terminal tax. The security shall consist of cash or of a bond hypothecating immovable property.

Barriers.

3. Octroi outpost barriers shall be placed at such points on, or in the immediate vicinity of, the octroi limits, as shall from time to time be determined as being the most suitable for intercepting the import traffic. Besides these outpost barriers there shall also, if necessary, be such other barriers as are prescribed in these rules, and octroi on animals for slaughter may be collected at the slaughter-house, instead of at the outpost barriers. In this case, the following rules for the collection and assessment of octroi shall apply *mutatis mutandis*. Municipal Account Code Rule 31.

5. Each barrier shall be under the charge of a staff of Muharrirs and peons, according to a standard sanctioned by the Committee. Besides any other duty prescribed by the Committee it shall be the duty of the staff to stop all goods liable to octroi at the barrier, and to assess and collect the octroi on such goods or to deal with them otherwise as prescribed in these rules. Municipal Account Code Rule 33.

6. The Committee shall appoint Inspectors or other responsible officer or officers to supervise the working of the barriers. Municipal Account Code Rules 34 & 35.

(*iii*) for temporary stoppage within the octroi limits, and eventual export.

NOTE.—If the importer makes no special declaration, the Muharrir shall treat the goods as imported for consumption or use.

Municipal Account Code Rule 38.

9. If the goods are declared to be imported for consumption or use within the octroi limts of the Cantonment the Muharrir shall assess the octroi as prescribed in the schedule.

Municipal Account Code Rule 39.

If the article is not entered in the prices current, and the value is less than Rs. 8, the Muharrir shall calculate its market value on the information at his disposal and with due regard to the value declared by the importer.

(2) If the market value of the consignment cannot be ascertained from the price current and is not less than Rs. 8 the article shall be sent on by the Muharrir to the Head Octroi Office, where the Octroi Superintendent, shall make the assessment after such enquiry as he may think necessary, including an examination of the invoice, if produced. Such invoices after careful scrutiny and after they are duly stamped shall be returned to the importer.

Municipal Account Code Rule 40.

11. If the importer disputes the assessment or calculations of the Barrier Muharrir, the Muharrir shall send the goods on to the Head Octroi Office with a brief report (of which he shall keep a copy in a memorandum book) for the decision of the Octroi Superintendent.

If the importer be dissatisfied with this decision, he shall pay the octroi, but can appeal to the Committee, provided he lodges his appeal within seven days from the date of payment.

NOTE.—Failure to pay the octroi assessed under this rule is punishable with fine which may extend to Rs. 50.

Municipal Account Code Rule 41.

12. Rupees 5 is the fixed limit up to which an Outpost Barrier Muharrir may collect octroi on a single consignment, and above which the octroi shall be collected at the central barrier.

Municipal Account Code Rule 43.

He shall then endorse his name on the back of the receipt and return it to the importer.

(*iii*) If the Inspector finds reason to believe that the full amount of octroi has not been paid on the goods, he is authorised to take the importer to the Head Octroi Office, where he shall immediately report the facts of the case. The importer shall accompany the Inspector to the Head Octroi Office, when called upon to do so under this rule.

NOTE (*i*).—Refusal to accompany the Inspector is punishable with fine which may extend to Rs. 50.

NOTE (*iii*).—The Inspector is required to exercise discretion and good faith as to the mode and extent of the inspection necessary, in each case, in the interests of all concerned. There must be no unavoidable injury to the goods inspected, no unreasonable delay to the owner and no loss to the Committee.

The forms for this purpose shall be kept in a separate book, and should be on differently coloured paper from the ordinary forms. The receipt with coupon attached shall be handed to the importer, who shall take it to the central barrier, and pay the octroi within the time (not to exceed sixteen hours) prescribed by the Committee, for this purpose. These transactions shall not be shown in the Jinswars of the outpost barriers.

NOTE.—(*i*) These transactions will be classified in the Jinswar of the central barrier where the octroi is actually collected.

NOTE.—(*ii*) Failure to take the octroi receipt to the central barrier and to pay the octroi within the time prescribed under this rule is punishable with fine which may extend to Rs. 50.

(2) At the central barrier :—The importer on arrival shall hand over the receipt to the Muharrir, who shall calculate and receive the octroi, and enter the amount paid in both receipt and coupon, striking out under his own signature the entry made at the outpost barrier in the appropriate column of the receipt.

(3) *Duties of Inspector.*— An Inspector meeting an importer with his goods covered by one of the receipts provided for in this rule, is authorised to demand his octroi receipt and verify the entries therein by inspection of the goods.

If he finds the receipt correct, the Inspector shall endorse his name on the back of the receipt, which he shall return with the coupon to the importer. He shall not retain the coupon for comparison at the barrier in these cases, as it will be checked at the Head Octroi Office and kept there.

The importer shall accompany the Inspector to the Head Octroi Office when called upon to do so under this rule.

Municipal Account Code Rule 53 (1).

(*ii*) Goods other than those specified in the preceding clause shall be assessed at the Head Octroi Office in accordance with the following rules. Municipal Account Code Rule 53 (2).

21. When an importer receives the railway receipt of goods consigned to him by railway, he shall take or send it with the invoice, or in the absence of the latter, with a written declaration of the details of the consignment, to the Head Octroi Office, where if the goods are found to be liable to the payment of octroi, the receipt and the invoice or declaration shall be abstracted into a railway receipt and invoice register. The date shall be written across the pages of the register before each day's entries are begun. The railway receipt and the invoice shall be stamped with a Committee stamp, and returned to the importer, to enable him to obtain his goods from the railway. The declaration shall be stamped and filed. Municipal Account Code Rule 54.

NOTE.—The Committee may supplement this registration check by arranging with the railways to give it, on payment, if necessary, a periodical abstract of their registers for comparison with the Committee Railway Receipt and Invoice Register.

Municipal Account Code Rule 56.

22. The registration of the consignment having been completed as laid down in Rule 21, the Octroi Superintendent shall determine the octroi leviable and note it on a Memorandum. The importer shall pay the octroi at the central barrier, the Muharrir checking the calculations of the memorandum. On receipt of the octroi, the Muharrir shall grant a pass to the importer, leaving the coupon and the third foil blank.

The Jinswar shall be prepared in the usual manner, and the above procedure shall apply.

Municipal Account Code Rule 57.

23. (1) On the arrival of the goods at the railway barrier, the importer shall present the pass obtained under the previous rule, and the Muharrir shall, after satisfying himself that the goods agree with the details entered in the pass, fill up the third foil of the pass, tear it off, and retain it to be sent to the Head Octroi Office at the end of the day. He shall hand back the second foil, with the blank coupon attached, to the importer.

NOTE.—The last two notes to rule 14 apply here also.

(2) The Octroi Superintendent may supplement the means of satisfying himself that the goods agree with the invoice on which octroi has been paid by comparing the goods with the invoice either at the Head Octroi Office or at the shop of the importer.

Municipal Account Code Rule 58.

24. If a consignment, which should have been registered at the Head Octroi Office, arrives at the railway barrier without a pass the Muharrir shall send the importer with his goods, accompanied by a peon and a memorandum (of which he shall keep a copy), to the Head Octroi Office. The Octroi Superintendent shall deal with the case as if it were a dispute under rule 11.

Municipal Account Code Rule 59.

25. When the third foils are received at the Head Octroi Office under rule 23, they shall be checked with their respective counterfoils and pasted on to them. In the event of a third foil not being received at the office within a reasonable time, investigation shall be made by the Octroi Superintendent, and the importer, if necessary, required to produce his railway receipt to show that his goods have not arrived.

Municipal Account Code Rule 60.

26. An Inspector, meeting a consignment which has passed the railway barrier, is authorized to demand the importer's pass, and verify the entries therein by inspection of the consignment. An importer, who is called upon for his pass under this rule, shall produce it and permit the Inspector to inspect his goods. The Inspector shall see that the third foil has been torn off and if he finds the pass correct, he shall fill up the columns in the coupon, which he will tear from the foil and keep for comparison with the third foil at the barrier. He shall then endorse his name on the back of the pass and return it to the importer.

If the Inspector has reason to believe that the full amount of octroi has not been paid on the goods, he is authorized to take the importer to the Head Octroi Office, where he shall immediately report the facts of the case. The importer shall accompany the Inspector to the Head Octroi Office when called upon to do so under this rule.

NOTE.—(*i*) The last two notes to rule 14 apply to this rule also.

NOTE.—Clause 2 of the above rule applies to traders who come to Ambála in winter and go to hills in the summer or manufacturers who import articles in one shape and export them in another shape.

(3) The Cantonment Committee may at any time withdraw the permission to compound.

Municipal Account Code Rule 68.

28. A list of persons and traders who have compounded for the payment of octroi shall be kept at each barrier.

Municipal Account Code Rule 69.

29. (*i*) To persons who compound for octroi, books of free passes and counterfoil shall be given. When such person wishes to bring his goods within the octroi limits, he shall fill up a pass and send it to the barrier.

NOTE.—If he does not send a pass, the goods will be dealt with under the ordinary rules.

(*ii*) On receipt of the pass, the Barrier Muharrir shall see that the person who has signed it, is named on the list; and if so, he shall after satisfying himself that the goods agree with the details entered in the pass, fill up the certificate at the foot thereof as well as the coupon. He shall then tear off the coupon, deliver it to the person who presents the pass and admit the goods named in the pass.

Municipal Account Code Rule 70.

30. (*i*) To persons who are permitted to compound on the basis of their net imports, a book of export passes shall be given. When such a person wishes to export his goods from the octroi limits of the Committee, he shall fill up a pass and send it with his goods to the barrier of export.

(ii) On receipt of the pass the Barrier Muharrir shall see that the person who has signed it is named on the second part of his list; and, if so, he shall, after satisfying himself that the goods exported agree with the details entered in the pass, fill up the certificate at the foot thereof as well as the coupon. He shall then tear off the coupon and deliver it to the person who presents the pass.

31. In the cases provided for in rule 30, the composition shall be based on the total amount of the imports as shown by the import passes prescribed in rule 29 less the total amount of exports as shown by the passes prescribed in rule 30. Exports not supported by a pass prescribed in rule 30 shall not be taken into account in fixing the composition. Municipal Account Code Rule 71.

32. Payments by persons who compound shall be made strictly in advance, and at the expiry of his period of composition, the name of the person compounding shall be immediately struck off the list unless the payment for the following period has been previously made. Municipal Account Code Rule 72.

Refund of Octroi.

33. Any person who exports from the octroi limits of the Committee any goods on which, if they were being imported, octroi will be leviable, shall be entitled to receive payment of a sum equivalent to that octroi. This payment shall be described as a "refund." Municipal Account Code Rule 73.

Provided that—

(a) no refund of less than eight annas shall be given;

(b) the refund on exported goods, which have been manufactured within the octroi limits from imported raw material liable to pay octroi, shall *not* exceed the octroi payable on the raw material.

34. No proof, whatever, of the previous payment of octroi shall be demanded. The fact that the goods are within the octroi limits and that octroi would be leviable on them if they were being imported, shall be accepted as sufficient proof that refund is admissible. Municipal Account Code Rule 74.

NOTE.—Proof of the previous payment of octroi is only necessary in case of indigenous articles.

35. Claims for refund shall be promptly dealt with, and when a claim has been admitted, the payment of the refunds shall be made on demand from Cantonment Office. Municipal Account Code Rule 75.

36. The Committee shall have notices printed and kept at the Head Octroi Office, for free distribution, showing the manner of obtaining refunds. Municipal Account Code Rule 76.

NOTE.—These notices shall also be obtainable at other places which may be convenient to the public.

37. The Cantonment Magistrate shall have charge of the payment of refunds. The payment will be made in the Cantonment Office. Municipal Account Code Rule 77.

38. In order to obtain payment of a refund, the exporter shall get an application form free of charge, from the Head Octroi Office. He shall fill up the appropriate columns of the application form, signing and dating the same, and shall then present it at the Head Octroi Office. No application for a refund shall be received unless it is made by the exporter himself or his representative, authorized in writing in this behalf. Municipal Account Code Rule 79.

A separate application shall be made by each exporter for his own goods, and refunds shall not be paid to more than one exporter on a single application, nor shall consignments be lumped together by one exporter to bring the amount of the refund above the limit of eight annas laid down in rule 33 (a).

Explanation.—One application shall be sufficient for a single consignment, whether it contains one or more descriptions of goods. If the consignment contains goods of different descriptions, they shall be separately detailed on the application. The exporter, however, will not be entitled to a refund on any single description of goods on which the octroi would be less than eight annas.

39. On receiving an application under the preceding rule, the Octroi Superintendent after satisfying himself that the goods agree with the details in the application, shall calculate the refund to be paid. Municipal Account Code Rule 80.

NOTE.—The Octroi Superintendent is required to exercise discretion and good faith as to the nature and extent of the examination necessary, in each case, in the interests of the Committee. There must be no avoidable injury to the goods examined and no unreasonable delay to the owner.

40. The refund clerk shall then enter the application in columns 1 to 5 of the Refund Ledger, note the serial number in the places provided at the top of the application and of the coupon, and hand the form to the exporter who shall take it with his goods to the barrier for export. Municipal Account Code Rule 81.
